- (iii) CENVAT credit available as per the provisions of the Excise Rules on capital goods is accounted for by reducing the cost of capital goods.

j) TRANSACTION IN FOREIGN CURRENCIES

- (i) Initial Recognition: Transactions denominated in foreign currencies are recorded by applying the exchange rates prevailing at the date of the transactions.
- (ii) Conversion: Monetary items denominated in foreign currencies remaining unsettled at the end of the year, are restated using the closing rates.
- (iii) Exchange Difference: The exchange difference arising on the settlement of monetary items or on reporting unsettled monetary items at the rates different from those at which they were initially recorded during the year, or reported in the previous financial statements, are recognized as income or as expenses in the year in which they arise. In case the monetary items are covered by the forward exchange contracts, the difference between the yearend exchange rate and the exchange rate at the date of the inception of the forward exchange contract is recognized as exchange difference.
- (iv) Forward Exchange Contracts: In case of transactions covered by forward exchange contracts, which are not intended for trading or speculation purposes, the premium/discount represented by difference between the exchange rate at the date of the inception of the forward exchange contract and forward rate specified in the contract is amortised as expense or income over the life of the contract.

Exchange differences on such contracts are recognized in the statement of profit and loss account in the year in which the exchange rate changes.

Any profit or loss arising on cancellation or renewal of forward exchange contract is recognized as income or as expense for the year.

In case of transactions covered by forward exchange contracts, which are intended for trading or speculation purposes, the premium/discount is ignored and at each balance sheet date, the value of the contract is marked to its market value and gain/loss on the contract is recognized.

(v) Non-monetary foreign currency items such as investments are carried at cost.

k) IMPAIRMENT LOSS

Impairment loss is provided to the extent the carrying amount(s) of assets exceed their recoverable amount(s). Recoverable amount is the higher of an assets net selling price and its—value in use. Value in use is the present value of estimated future cash flow expected to arise—from the continuing use of the asset and from its disposal at the end of its useful life. Net—selling price is the amount obtainable from sale of the asset in an arm length transaction—between knowledgeable, willing parties, less the cost of disposal.
